

## **Gateway Safety, Inc. Offers a Full Line of Earplugs for Effective Hearing Protection at an Affordable Price**

### *All Hearing Protection Products Featured in New 2008-09 Catalog*

March 19, 2009—As part of its mission to provide comfortable, high-quality safety products at economical prices, Gateway Safety, Inc. offers a full line of both disposable and reusable earplugs with independently tested noise reduction ratings ranging from 25 to 31 NRR. All styles come in bright colors, making compliance checks easy, and all are available with optional breakaway cords to keep hearing protection close at hand. All Gateway Safety earplugs come packaged in a convenient, ready-to-hang dispenser box, further encouraging worker safety.

#### **Disposable Earplugz™ in Two Styles**

Disposable Earplugz are Gateway Safety's value-priced disposable hearing protection. The comfortable, colorful earplugs encourage employee compliance and provide some of the highest noise reduction ratings, 29 NRR and 31 NRR. Optional breakaway cords on both styles keep them handy and encourage compliance.

**GloPlugz®** feature a 31 NRR, the highest independently tested rating available. With a smooth, tapered design, a vibrant blue color, and a soft non-allergenic polyurethane formula, GloPlugz help ensure all-day comfort. Their soft, smooth "skin" makes insertion easy. Optional purple breakaway cord available.

**SoftPlugz™** are designed with a standard barrel shape in a slightly longer design for a deeper, more secure yet comfortable fit. Made of non-allergenic and moisture-resistant bright orange polyurethane, SoftPlugz provide a 29 NRR for excellent sound protection. Optional yellow breakaway cord available.

#### **Twisters™ Reusable Earplugs**

Washable, reusable Twisters are a durable earplug solution with a 25 NRR, making them the perfect choice for mid-range hearing protection applications. Twisters' effective triple-flange design forms a triple seal in any size ear and allows wearers to hold the plug post and easily insert them into the ear without having to roll or touch the plug, helping to eliminate the chance of germs entering the ear. An

air bubble tip helps make Twisters extremely soft and comfortable to wear, yet durable enough for long-term use. They are made of high-quality, high-visibility purple silicone and are available with an optional hi-viz orange cord.

All of Gateway Safety's hearing protection products are featured in the company's recently updated full-line, full-color catalog.

**About Gateway Safety**

Gateway Safety, Inc. designs and manufactures award-winning, cost-effective personal protection equipment. Product categories include eye, face, head, hearing, and respiratory protection. For more than 60 years, it's been Gateway Safety's mission to help employers increase safety compliance and improve the overall welfare of their employees by making safety products that workers want to wear—which, in turn, helps companies reduce the high costs associated with workplace injuries.
